## 📄 Summary

Aspiring Front-End Developer, currently an undergraduate with ALX Foundation. Proficient in React, TypeScript, and Redux, aiming to build captivating interfaces and scalable applications. Committed to learning and making impactful contributions.

## 📁 Projects

### E-commerce Platform using React: My Project Showcase

2/2024

React | Redux-Toolkit

- Implemented React Redux Toolkit for state management and improved application performance.
- Implemented filtering functionality and cart management seamlessly in the user interface.

### Responsive Watches Website using JavaScript: My Project Showcase

10/2023

Html&&CSS – JavaScript

- Created a responsive Watches e-commerce platform using HTML, CSS, and JavaScript for dynamic user experience.
- Implemented filtering functionality to allow users to easily search and sort through product listings.
- Developed a seamless cart management system in JavaScript, enabling users to add and remove items effortlessly.
- Ensured cross-browser compatibility and responsiveness for a consistent experience across different devices.
- Documented code and adhered to best practices in HTML, CSS, and JavaScript development for maintainability and scalability.

### Create My Portfolio Website using JavaScript: My Project Showcase

9/2023

Html&&CSS – JavaScript

- Created a dynamic portfolio website using HTML, CSS, and JavaScript to effectively showcase skills and projects.
- Integrated smooth navigation and interactive elements to optimize user engagement and experience.
- Designed an aesthetically pleasing layout with modern UI/UX principles for a professional online presence.
- Ensured compatibility across various devices and browsers, guaranteeing a seamless user experience.
- Documented code and adhered to industry best practices for enhanced code maintainability and scalability.

### Create Travel Website using JavaScript: My Project Showcase

9/2023

Bootstrap

- Created a Travel website using Bootstrap for responsive design and layout management.
- Integrated Bootstrap components and utilities to enhance user interaction and visual appeal.
- Implemented Bootstrap's grid system for a structured and organized layout across devices.
- Ensured cross-browser compatibility and responsiveness using Bootstrap's built-in features.
- Documented code and utilized Bootstrap's best practices for efficient development and maintenance.

## 🧠 SKILLS

HTML CSS JavaScript TypeScript React Redux Bootstrap Tailwind Python C++

## 🎓 Education

• Mechatronics Engineer “Student at level 4”

• Student At ALX Software Engineering ( Holberton School)
